

We at PetPoint Solutions understand the importance of driving traffic to your organization's website. That's why we've developed a series of Web Tools that are powered by Petango or the PetPoint Data Management System for you to display a variety of information about the animals in your database. Each of the tools below is available as a free customizable I-frame or as a Web Service.

**Adoptable Search:** This tool provides live adoptable pet data to your website, giving the world real-time information about pets that are available in your shelter or rescue. Since it's real-time, your website will be instantly updated when changes are made in PetPoint, such as when a pet is adopted or is no longer available for adoption. A video, pictures, and a warm & fuzzy story can be added for each animal.

### Adoptable Search Listing

### Happy Tails Detail - With Memo

**Henry** [Return to Listing](#)

Animal ID	2009836
Species	Dog
Breed	Retriever, Labrador/Terrier, Pit Bull
Age	6 year(s) 8 month(s) 16 day(s) old.
Sex	Male
Size	Medium
Color	Black/white
Declawed	No
Adoption Date	11/10/2009

We found Henry on Petango. He is a great dog, and we would not give him up for anything. He loves playing tug of war in our backyard and is one of the happiest dogs I've seen. Thank you to Petango for allowing us to find him. He is a dream dog. He gets along great with our other dogs as well. We are glad we could help him find a forever home with us.

 Find your new best friend on [www.petango.com](http://www.petango.com).

**Lost/Found/Stray:** this tool provides live Lost, Found and/or Stray pet data to your website, giving the world real-time information about pets that have been reported found to you by the public, are currently in your shelter's or rescue's custody (as a "stray"), or pets that have been reported lost to you by the public; giving them a better chance at being found. A video, pictures, and a lost or found report note can be added for each animal.
