

Introducing a simple solution that'll help your organization adopt pets faster.

Only PetPoint Solutions offers a fully-integrated system coordinating data management, pet insurance, pet microchip identification and online pet adoption. It's a complete world of services designed to work together for efficient and successful adoptions.

Enhance your services.

The PetPoint Data Management System is a free, easy-to-use, web-based application dedicated to reducing your shelter or rescue's overall operating costs.

The system streamlines data management, allowing for easy data entry and retrieval, while ensuring accuracy and consistency. Operational efficiency is maximized with a host of features, including informative and flexible reports available online 24/7, plus additional features such as PetPoint Transfer Network. Included is the real-time Adoptable Search Listing and Petango's online pet search site. See back for more details.

Save time, money, PLUS give new adopters immediate benefits!

PetPoint operates seamlessly with the ShelterCare Gift of Insurance and 24PetWatch Microchip Identification. PetPoint stores your organization's pet data and provides effortless linkage between pets, insurance, and the 24PetWatch Recovery Network. Both ShelterCare and 24PetWatch are electronic services that are environmentally friendly with no tedious paperwork involved! All you need is the adopter's email address. Once activated, pet insurance coverage begins at 12:01 AM the second midnight, meaning if adoption takes place on Monday, coverage will begin at 12:01 AM Wednesday morning.

Give your organization's pets the best start in their new homes and take advantage of all that PetPoint Solutions has to offer. **See more details on reverse!**

PetPoint Solutions provides animal welfare organizations with some of today's most important pet protection services:

A web-based data management system dedicated to reducing the operating costs of shelters and rescue groups just like yours.

- Easy to use; training/support included
- Informative and flexible reports 24/7 online
- No expensive hardware or software required
- Immediate upgrades and real-time statistics
- PetPoint's Adoptable Search for your organization's website

NEW!

Find Pets for your Pawsonality! Introducing Petango Petmatch...

- Petango Petmatch™ is a unique online service designed to match potential pet owners to adoptable pets based on their personality, lifestyle, and pet preferences.
- Whether a person is looking for a pet that's active or passive, playful or peaceful, social or stoic, Petmatch™ will help potential adopters find their perfect pet and encourage them to adopt.
- Potential adopters are assessed via a short, online questionnaire that generates a list of compatible adoptable pets based on the user's answers.
- By engaging and helping potential pet adopters in a personalized, interactive way, Petmatch™ is expected to drive more traffic to a shelter's website, more foot traffic into a shelter's location, and ultimately help increase adoption rates.
